Mentor Knowledge & Skills Online Course

This course covers the fundamentals of Mentoring and is suitable for anyone who wants to gain an understanding of mentoring and the skills it requires. This course has been developed based on the SMN Good Practice Guidance.

Who this course is for:

- This course could be used as a standalone course for individuals who would like to understand more about mentoring and mentoring skills or by a project to supplement their mentoring training.
- Mentoring projects should **supplement this course** with a session with their **mentors outline the specific policies and procedures** that relate to their mentoring programme.

Learning Outcomes

The course is made up of 8 key learning topics. By undertaking this training individuals will learn about:

1. What is Mentoring?
2. Role of a Mentor
3. Mentoring Skills
4. Mentoring Processes
5. Mentoring Models
6. Mentoring Conversations
7. Good Practice in Mentoring
8. Mentoring Timeline

The knowledge and understanding of these learning topics is assessed at the end by a multiple choice quiz and if the learner passes they will be issued with a certificate from SMN acknowledging their learning.

Features

- This course is delivered using SMN's online training platform.
- Learners will be given their own account which gives them access to the course materials and assessment and further reading.
- The Course has been designed to be self-paced and provides the materials in a clear and attractive format.
- Mentoring projects coordinators who wish to register a group of mentors for this course will receive a login to our platform which will allow them to monitor the progress of their mentors.
- Mentoring coordinators can also choose to access an additional support session with SMN on what additional information they should cover with their mentors to provide comprehensive mentor training.

Rates

Members: £25 per person
Non Members: £50 per person
